

An aerial photograph of a large, calm lake under a blue sky with scattered white clouds. The shoreline is lined with dense green trees and some residential buildings. Several small boats are visible on the water. A dark grey rectangular overlay covers the right portion of the image, containing the title and photographer information in white text.

PRODUCT MANAGEMENT

Promoting new and improved items as well as current program offerings.

- Bottom Left: Osteospermum Zion™ Purple Sun by Selecta - Early release for 2018/2019 Spring Liner Season.
- Bottom Right: Tiger Eyes Mum by Dümmen Orange - Released after 2019 Mum & Aster Catalog was published. Special advertising has made this a MYP Best Seller without even being in the catalog.

Purple Sun Takes you to the summer.

selecta one

MAST YOUNG PLANTS

Introducing Osteospermum Zion™ Purple Sun

MYP is adding another EARLY Release to our 2019 program and this one is an AWARD WINNER!

We're excited to introduce Osteospermum Zion™ Purple Sun, winner of the FleuroStar 2018/2019 Best New Flower.

Available in a Split 51 Tray | Weeks 3-8, 2019

2018/2019 FleuroStar Winner!

Like the summer sun setting over the ocean, this hot, new item from Selecta One has several shades of orange fading into a deep purple ring that surrounds the heart of the flower. Perfect for sunny locations in beds and on the balcony. Flowers all summer long!

Growers will love the good branching and the easily controllable plant habit. Purple Sun can perfectly be integrated in any existing Osteo production scheme and the enchanting orange-purple color combination will genuinely shine at point of sale. Consumers will love the non-fading colors and excellent outdoor performance.

In order to get the best product on the market, here are some production tips:

Purple Sun has a unique color. For the intense flower color (purple center, orange, yellow ring) sunlight and warm conditions are needed otherwise the color stays darker and contains no yellow ring. Also, Purple Sun is sensitive to cold and wet production conditions. In such conditions, the variety will not develop good branching and will have a thin body.

Limited Availability!

- Bottom Middle: Introduced Mast Fusion Combos, assorted trays for the smaller grower. Launched eight NEW assortments in 2018/2019 and added an additional five in 2019/2020. Oversaw product/component selection and designed logo.
- Right: Launched a NEW product line/trial program with Henry F. Michell's: Quick Blocks. Featuring Kwik Kombo™ components by Syngenta Flowers.
- Bottom Left: Mast Fusion Constellation™ Mix video posted on Facebook.

QUICK BLOCKS

Building Better Combos

INTRODUCING THE QUICK BLOCK

Spring Production Trials conducted by MYP's Innovating Department have concluded and we're excited to introduce the Quick Block: an innovative new product line by MYP that allows growers to turn combos faster.

Featuring Syngenta genetics, we've made our triple stuck liners BIGGER and more much impressive. Now we want your feedback! We're shipping MYP Half Boxes with SIX Quick Blocks to select reps and customers! With your help, MYP will be able to develop a program as early as 2019/2020!

QUICK BLOCK SPECS

Each Quick Block contains a Kwik Kombo™ Mix and is built from three 25mm plugs (One of each component grown in a split 51 cell tray for 4 weeks with one pinch).

After the 25mm plugs are transplanted, we grow the Quick Block for another 5 weeks along with a second pinch and a B9/Flore application to encourage more branching.

Featuring:

Beach Bum™ Mix
Chloe's™ Mix
Citrus Fire™ Mix
Grape Expectations™
Plum-Tastic™ Mix
Wine Down™ Mix

Finish Times: Four Weeks

BPP (Blocks per Pot):

10" Hanging Basket: One Quick Block
12" Hanging Basket: Two Quick Blocks
12-14" Deco Pot: Two Quick Blocks

ORDERING & SHIPPING INFORMATION

One MYP Half Box holds SIX assorted Quick Blocks (THREE Quick Block's per tall insert). Each box will contain ONE of each combo. No special requests will be accepted.

\$15 per Box (\$2.50 per Quick Block) + \$20 Freight (All zones) = \$35 total.

Book orders week 16-18 (April 15-May 3rd, 2019) for ship week 18-19 (April 29th-May 10th, 2019).

2019 POINSETTIAS

Our rooted poinsettia liners are hand stuck and carefully grown in a 34 Strip Tray. This allows our plants to be spaced properly and provides air flow all the way around each side of the tray!

Discover our newest additions, along with our best sellers and must-have varieties. This year, we've added 10 new varieties from Selecta, Syngenta, Ecke, and Vivero! With more than 100 varieties, MYP has the most diverse and up-to-date color assortment in the marketplace.

Poinsettias evoke the holidays like few other plants so let's add a box of MYP poinsettia liners to your 2019 Seasonal Program! Contact your broker today! Available July 1st, 2019!

DAHLIGHTFUL® DAHLIA

Superb Garden & Greenhouse Performance

Bred by: GardenGenetics

DAHLIGHTFUL® DAHLIAS

These compact growers, with gorgeous blooms set off by deep chocolate foliage and exceptional tolerance to most powdery mildew strains, are now widely available as unrooted cuttings and rooted liners.

Consumers love Dahlialightful® Dahlias because they can enjoy the gorgeous flowers all summer long. Plants continue to bloom from late spring through fall against a backdrop of colorfast dark leaves, while maintaining their compact, dense growing habit.

Retailers, and by extension, growers can take advantage of the rich, jewel-toned flower hues to stock late summer color for repeat shoppers.

The Dahlialightful series keeps producing flowers from early through late in the season. While these bloomers won't sit on the bench at retail, should a slow weekend or two pass, plants will continue to produce new flowers to entice customers.

Beautiful in containers, Dahlialightful® Dahlias are equally show stopping in the landscape.

Dahlialightful® Dahlias are available for 2019/2020 orders in five colors.

Effective July 1, 2019, Dahlialightful® URCs are available from Kientzler North America for delivery between 2019 week 45 and 2020 week 15.

CHARACTERISTICS

Dahlias for Landscape and Container Use

Height: 20-36"
Spacing: 12-16"

2018 MYP TRIAL GARDEN TRIAL RESULTS & DATA

GARDENS AT BRISTOL

Grand Rapids, Michigan

Number of Entries

- 1,300 varieties from more than 20+ breeders featured in our 2019 catalog
- 300 varieties of verbena and coleus in our Annual Comparison Trial voted on by visitors
- 300 varieties of mums in our Second Annual Shaded Mum Trial
- 300+ Homemade MYP combination planters and hanging baskets

Weather Data

June - September 2018
 AVG Temp: 73.68°
 High: 93.90°
 Low: 55.90°
 Rainfall: 11.77"

Judging was conducted by key MYP staff:

Brian Weesies & Michael DeBerti

Consumer Favorites

Instead of offering a blind comparison trial, we tagged and grew over 300 varieties of assorted coleus and verbena and then allowed visitors to vote by tagging three of their favorites. We tallied the votes daily and released the winners online at the end of week 36. The winning coleus, Stained Glass Royalty, will be awarded a place in 2019/20 catalog and the winning verbena, Meteor Shower, will move to the next round of trialing in our Innovative Department.

MYP Wins

- By presenting more varieties in 14" pantera pots, we felt visitors could get a better read on the plants themselves.
- Giving the plants more space in the 14" pots with a 4" center improved the appearance and performance of each pot.
- We also put a brick under the pots to allow more drainage.

Challenges

- We had a wet June after the garden was planted which lead to root rot on the dahlias and the zonals.
- We treated them with soil fungicide and were able to get them through this wet establishment phase. Then it got hot and dry in July and the plants took off and thrived.

Top Performers

- Fragrant Falls Begonias
- Top Hat Begonias
- Surdiva Scaevola
- Portulacca Double Colorblast Magenta (Majority of all portulacca varieties exhibited excellent garden performance)
- Calibrachoa Bloomtastic Rose Quartz
- Petunia Surprise Burgundy Star
- Begonia Canary Wing
- Delosperma Delmara Yellow

Best of Show Varieties

- Fragrant Falls Begonias
- Calibrachoa Bloomtastic Rose Quartz
- Begonia Canary Wing
- Delosperma Delmara Yellow

For more info, please visit www.mastyoungplants.com and check out our Facebook.
